

1. How can there be interagency collaboration at the federal level with the Life Course model (thought, programming, funding, streams)?
2. What is HRSA going to do with the model; how are they going to implement it; how will it go out to the states?
3. What will happen to specific populations such as CSHCN if Life Course gets incorporated into MCH programming?
4. Does HRSA have a plan for implementation of the Life Course model in individual states?
5. What are the venues that we need to be at, to be included in the decision making process, plant the seed...to incorporate the Life Course model?
6. What is the common language/message to communicate the Life Course model to other disciplines e.g. chronic disease? Talking points?
7. What can this group do to spread the message of the Life Course? What is our NLN group's vision?
  - a. Connection with ASTHPND, MCH Council.
  - b. Module development, U Wash/partners/NLN.

1. How do we attain evidence related to nutrition and LIFE COURSE?
2. How do we create community where everyone is involved in promoting health?
3. Where can we contribute as nutritionists in Life Course pipeline?
4. What role can we plan as nutritionists in connecting others to prevention work?
5. How do we maximize funding streams to support Life Course/nutrition work?
6. USDA/WIC/HRSA how to foster interdepartmental shared vision and priorities?
7. How do we effectively intervene with populations when timing is critical?
8. Concrete examples are needed for states to implement Life Course.
9. How do we present our ideas, what format?
10. How do we get opportunities to work across agencies in the state? How do we overcome funding barriers?

1. What approach would be recommended to connect programs together?
2. What policies need to be changed within programs to allow this to happen?
3. How can we frame this for policy makers so they see this prevention focus? What should title V be targeting money/funding towards to be biggest bank for the dollar?
4. How do we remember to include special populations as we embrace this new focus/direction?
5. Is it a frame work perspective, a model or theory?
6. What is "health" in the nation? What do we mean by "health"?

#### Ideas

1. Learning community around life/course
2. Video of today's speakers by Michael
3. Writing an article for Michael's request for Call to Action to support Breastfeeding. Judy, Robyn

4. One page brief on MCH Nutrition and the Life Course (1- science, 2- training, 3- case studies)
5. Share info for today with colleagues, introduce language
6. Ask new Dir of Health to present Life Course as cabinet leading to Gov's summit.
7. Use the opportunity of reorganizing at state level of early learning council to education about Life Course.
8. CDC needs to add preconception care health pieces as a pillar to address obesity
9. Partnering with Chronic Disease
10. USDA including them in the education effort (domino effect)
11. Activities and ideas for including CSHCN (Yuchi, Liz, Shirley)
12. Gather information to be sure we are not duplicating efforts. Post on website.
13. Join Council in your state or ID who is on it check federal regulations, Shirley?
14. Teaching in universities –identify lesson plans, curricula - ATMCH
15. Break down silos in specific agencies, org, common shared language - all
16. ID doable strategy and do it
17. Gov Summit on LV as it relate to children in Oregon, Hawaii
18. Play the Life Course game, city match, Life Course tool box - all
19. Participant centered services new proposed WIC model. Dena.
20. IOM testimony - All, Marion
21. Robyn, Lynn, Judy, Suzanne, Pat – for meeting with Tim O Conner FNS, Bill Deitz CDC, Peter Van Dyke, Larry Grummer Strawn CDC

Wendy Adam – new MCH and Denise S working with her.

#### Topics for 2012

- Life Course/training blended – Policy into Practice, System Change
- Shaping Health Policy (NC) 12 full days SPH CDC Health Policy
- Applications
- Sharing what's happening across states
- Parents consumers family leadership institutes
- Messaging
- Integration (Lynn's thoughts) across agencies how to work together how to get "ready"
- How to create communities that focus on health
